And What Have You

By BOB CRAIG

Like most people we can never get enthused over tax increases but of all the tax increases that we have we find it easier to take the local ones such as city and school taxes. We are not too sure whether this is because we feel that we get more for our money at this level or just that it is close to home where we can watch it being spent.

To us, the most amazing thing is that with the cost of everything going up the way it has the city has been able to wait this long before increasing its valuations to have enough money to operate. Sometime I think we take the short sighted view and hold off in raising taxes too long at the local level and in the long run costing the taxpayers more money through false economy. We hope that this has not been the case here.

To operate a city government or a school you have to pay your personnel a living wage and give them the equipment they need to do the job.

We would hope that with the 10 per cent increase at the city level some money can be found to improve the local airport. This facility is in such poor shape that it is almost a shame to call it an airport. While most of us may never use the facilities there it does play a more important part in the life of this area than we sometimes realize.

The most pressing need is for some type of hard surface runway. Two or three planes a day average landing here and more would use it if it were in better condition. The big problem is that it can not be used during or after a rain and therefore is not dependable enough to be counted on. A large number of oil people as well as other businessmen fly in here when they can and these people can affect our local economy. One big argument for a better field would be for emergency ambulance service that could affect the lives of local citizens.

We realize that the city is like most businesses and individuals — it can always find more places to spend its money than it has money to spend but would hope that some sort of priority could be placed on doing something about the local runway.

A number of local citizens have spent a considerable amount of time and money in making several improvements at the field but it has reached the point where it is time for the city to take over from here.

The following is from the Texas Good Roads Association July newsletter: "Had your irony today? Try reading over some of the headlines of the last few weeks.

"May 30 — 'Texas Legislature Tightens Highway Safety Laws.'

"June 29 — 'Texas Ahead of Most States in Safety Standard Compliance.'

"July 5 — 'Texas Leads Nation in Holiday Traffic Dead.'

"It almost seemed Texans went on a record 67-death binge as one last fling before stricter rules take hold. Actually it will be months, maybe years, before most of the new laws have any effect on our up-spiraling accident rate (numerically and in ratio to vehicle miles).

"Actually the new 'tough' Texas laws aren't very tough. They will have to be made more so. We will have to quit worrying so much about the people who are going to be inconvenienced and start thinking about the people who are going to be dead."

Among other bits of news to be found in this newsletter is the fact that at least 42 county courthouses have burned down in Texas out of the 435 that have been lost or abandoned. The latest was the 71-year-old Gothic - Flemish courthouse at Madisonville which burned the night of May 14 this year.

It was one of the last of those off-beat architectural adventures of the 1880s and 90s. Classics of that era that are still in use, reasonably undefiled by improvement, include the ones at Albany and Alpine.

This was the fifth courthouse for Madison County and the fourth to burn down.

Local TB Board Members Tour McKnight Hospital

Mrs. A. A. Hackley, Mrs. W. L. Hunter Jr. and Miss Lennie Greenway were guests of the McKnight State Tuberculosis Hospital in Carlsbad, Tex., July 13, when local Tuberculosis Associations board members were invited to tour the facilities. Purpose of the gathering was to acquaint the volunteer organizations with the staff members, personnel and operation of the hospital.

Key speakers for the morning program were Dr. Richard F. Allison, McKnight Supt.; Bobby Fletcher, president of Tom Green TB Association; Graham Smoot, education director, TB Division, State Health Dept.; Dr. Robert B. Skinner, director, TB hospitals, State Health Dept.; and Mrs. Emily Boyd, Field Representative of Texas TB Association.

A tour of the hospital facilities gave the visitors first hand knowledge of the benefit the patients receive at the sanatorium. They were also shown how to help the patients with their rehabilitation on their return to the county.

The women were impressed with the up-to-date equipment and other facilities.

Area Farm and Ranch News

By Don Elmore

This has been a very unusual July, with all the cool weather and spotted rain, but then West Texas is an unusual place to live.

Some of the hybrids are about ready to cut for hay and just in time, because most hay sheds are about empty.

Someone said the other day they had never seen weeds grow so well on so little moisture. They are really growing this July.

We went over to Stamford and had a wonderful time over the 4th holidays as usual. This year seemed even better because of the extreme cool weather.

Seemed the people in charge tried extra hard to please everyone at the Rodeo and the contestants appreciated it.

As usual we still need one more good rain, so while you're looking at your new catalog, if you see an add for one please order it.

Anytime anyone has farm news of interest or humor, if you will tell me about it, we'll tell all the readers of this paper about it.

We understand that about two weeks ago Clarence Bailey carried several bunches of Thompson seedless grapes into the office of the Herald some he had grown right here in Hamlin at his home, 318 N. W. Ave. A. Can't say for sure but I heard they were very good.

Rainfall Here Wednesday Tops Inch Mark

More than an inch of rain fell here Wednesday in showers that started before day break and lasted until noon. At 10 a.m. the rain measured one inch and by noon it had amounted to 1.03.

Last Thursday .71 was recorded to bring the week's total to 1.74. A trace was noted on Monday, July 17.

Six-Day Delivery Of Parcel Post To Resume Here

Postmaster Perry Sparks today announced that parcel post deliveries in Hamlin will be expanded from five to six days a week as of July 20.

This is in line with a recent directive from Postmaster General Lawrence F. O'Brien following the signing of the Post Office Department appropriation bill by President Johnson. The legislation contains an \$8.5 million item for restoration of the six-day a week delivery which had been cut back in May, 1964, as an economy measure.

Nearly 5000 cities are affected, Postmaster Sparks said.

The Hamlin postal official noted that the improved service will remove an inequity for many business and residential routes.

Postal customers served by "motorized" letter carriers have been receiving six-day deliveries all along. They were not covered by the 1964 cut-back inasmuch as carriers on vehicles can deliver parcels of any size. Customers living on routes serviced by foot carriers have received larger parcels from a five-day a week parcel post route covered by a truck. Carriers on foot only deliver small packages.

Neinda Philosopher Wants Guaranteed Annual Wage But No Share In Washington's Profits

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route 1 may have his tongue in his cheek this week. You never can tell. It could be his foot. That's his problem.

Dear editor:
I never have been afraid of a new idea, it's the old ones that sometime bother me, the same as the known can sometimes be worse than the unknown, and I'll admit I'm fascinated by a new idea I read about in a copy of a newspaper I found in a ditch by the road out here yesterday, weighted down by a load of tin cans and bottles which somebody in town apparently had given me, although I wish you'd tell them I'm not in the market.

Burglars Hit Roy's Station Tuesday. Take Food, Money

Roy's Service Station, 851

South Central, was hit by burglars Tuesday night. Candy, cookies, and crackers were taken from the open candy case and the cigarette machine was damaged and robbed.

The break-in was discovered at 7 a.m. Wednesday when W. N. Brown, operator, opened for business.

Forced entry was through a storage room. An air conditioner was moved and a window was broken.

To be statesmanlike about it, the job obviously falls on Washington, and I will appreciate your using your influence if you can locate it somewhere around there in your office to get this thing set up by Congress before the end of the year. Look over there behind that stack of papers.

There is one point though I want to steer clear of. The auto workers are asking also for a share of the companies' profits. We don't need that provision in our bill. Don't even mention it.

You let somebody suggest we're entitled to a share in Washington's profits and immediately some smart alec up there would suggest we'd also have to share in the losses. It'd ruin us.

Sylvester News...

By Mrs. R. M. Babb
We had .75 in. of rain last Thursday and we could use more but we will wait.

Bro. Leverett and family spent last week in Kingsland visiting his parents, reported a good time and glad to be home.

Mrs. Ruth Brown and Mrs. Alba Tefteller returned from Austin on Sunday afternoon having been there to attend the Postal Convention. Mrs. Tefteller is Postmaster in Roby. I believe they had a good time and learned several new things.

Mr. B. S. Stephens spent several days in Hendrick Hospital in Abilene but is home doing well.

Ernest Kiser is spending a few weeks in Fort Worth visiting relatives and attending to business.

Bennie Bragg and Mary Wilson started to Roby last Monday but didn't get there the way they intended to, the car flipped over the end of the culvert just before they got to the 180 highway. Mary has some broken ribs and cuts but is doing fine in Wilkerson Clinic. he (Bennie) wasn't hurt but the car was demolished.

Tommie Gene Wilson of Southland is spending a few weeks with her grandmother, Mrs. Gladys Williams while her mother and father are in school in S. M. U. in Dallas.

Bro. Leverett, Jon and David Stephenson, Clyde, Ronnie and Steve Pursley went to R. A. Camp in Lueders Monday afternoon.

Mrs. Raymond Griffin's niece, Miss Bohannon of Calif. has been visiting in the Griffin home and recently returned to Calif.

Mrs. Mary Porter and family of Roscoe visited in the Milt Montgomery home one afternoon last week and when they returned home Vicki Porter remained for a visit.

Our sympathy to Mrs. Charles Scott in the death of her sister and brother-in-law, they were both killed in a car wreck in Roswell N. M. last week with funerals in Mission, Kan. Monday.

Rhonda Douglas will attend a Twirling School in Lubbock at Texas Tech this weekend. She will be a Twirler for the Roby High School this coming term.

Mrs. Grace Brewer spent last Friday visiting friends here then drove to Hamlin to spend the night with her niece's family, the Sid Putmans.

Mr. and Mrs. Raymond Perkins spent some time with his Mother, Mrs. Perkins, Raymond and Ruth live in Lubbock.

Visiting in the Fred Turner home this week will be Mrs. James Turner and daughters of Brownfield, Texas.

It was depressing to watch Norma McCollom's house

being moved out, we really can't afford to have many more move out we prefer to have them brought in or just build a new one.

Mrs. Luke McCollom was some better last night when we visited her in Simmons Hospital she had had a set back and will have to start all over again.

Mr. Claude Cross is still improving in Callan Hospital in Rotan.

Mr. Cecil Kiser and Mr. Lewis Kiser attended the funeral of Mrs. Howell in Knox City on Sunday.

Mr. and Mrs. Webb Killingsworth spent Sunday afternoon visiting in the Cecil Kiser and Carra Perkins homes.

Visiting in the D. A. Self home over the weekend were their two grandsons and

Old Glory News...

By Judy White

The fourth Old Glory Homecoming will be held on Sunday, Sept. 3, at the Old Glory School Building. The homecoming is held every three years for former students, teachers, and patrons of Mt. Zion, New Hope, Hooker, Brandenburg, Tonk Creek, and Old Glory.

Registration will begin at 9:00 o'clock that morning in the front entrance hall of the school building. There will be

granddaughter from Sweetwater.

no registration fees, but it is important that everyone register.

A catering service from Abilene will prepare the noon meal. Meal tickets will be \$1.50 per plate, and serving is scheduled to begin at 11:30 a.m. Money for meal reservations should be sent to Mrs. Allen Davis, Rt. 1, Rule, or to Mrs. Glen Pierce, Old Glory, by the deadline, August 15. They will furnish tickets which must be presented to the caterers at the time the meal is served. No refunds will be

made.

The afternoon session will begin at 1:30. H. L. "Cooter" Boles will have charge of musical entertainment, followed by a short talk by Carl Reber (Class of 1933), recognitions and business meeting. Various group reunions will be held in air-conditioned classrooms after the meeting. Free coffee and iced tea will be served throughout the day.

Due to address changes, committee members have found it impossible to contact everyone by mail, and they have asked that everyone in the community help spread the word about the Homecoming. Members of the 1967 Homecoming committee are Howard Tribbey, President; Cecil Klump, Vice-President; Mrs. Allen Davis, Secretary-

Treasurer; and Mrs. Glen Pierce, Assistant Secretary-Treasurer.

Visitors last Thursday in the home of Mr. and Mrs. Adelbert Suter and Nelson were Mr. and Mrs. Roger Hinze and children of Carmine. On Sat. Mrs. Louise Schroeder

and son, Harry, of Dallas visited in the Suter home. Mrs. Schroeder is Mr. Suter's cousin. These folks also visited Mr. and Mrs. Gebhard Nehring in Haskell, and Mr. and Mrs. Louis Spitzer, Mr. and Mrs. Martin Letz, and Mrs. Willie Suter.
